

Dear Mr. Pitcher

Thank you so much for coming and being a guest speaker and performing for our Psychology classes. Your performance was engaging and entertaining.

You exceeded our expectations by catering your show to the needs of our students: length and content. The feedback we have received from the students has been positive. Students are still talking about it two weeks later. In my classes we had a great conversation about your show and hypnosis in general. It is always great when we can get students so excited about a topic.

We are grateful that you were able to come and would highly recommend you for all types of corporate or private events.

Thank you,

Robyn Dixon
