To whom it may concern:

We recently ask Jay Pitcher to provide entertainment with his hypnosis act for our company Christmas party. Jay has had over 20 years' experience in this realm and handled the night beautifully. He brought sufficient audio equipment to help add to the entertainment experience and was very professional. He stayed within his allotted time frame and was willing to offer the use of his microphone for our announcements.

Our employees totally enjoyed the performance and many requested we use Jay at future company parties. It was a pleasure having Jay entertain us and we hope to see him continue his efforts for years to come!

Sincerely,

Marc Emley
