To Whom it May Concern;

Our Rotary club invited Jay Pitcher of Hypnosis Southwest to visit our club's social November 6<sup>th</sup> of this year to explain the benefits of Hypnotherapy and to perform a hypnosis skit with volunteer members.

Following his informative discussion of the merits of hypnotherapy and the amazing results for those who had health issues or habits they were trying to break, Jay asked for volunteers for the clean comedy side of his specialty and had six members agree to go under hypnosis.

The result was very entertaining and had the volunteers completely out of their comfort zone. The audience was in stitches as they watched their loved ones or fellow Rotarians follow Jay's instructions.

It made for a very fun social event as well as learning about a technique that has helped many people overcome nagging issues in their lives.

I would highly recommend Jay as entertainment and/or presenter at any social outing or group presentation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Joe Christopher', with a long horizontal line extending to the right.

Joe Christopher
